## ABOUT

---

**My technology stack is HTML CSS/Sass JavaScript. I'm currently learning ReactJS. I can make responsive websites for different devices. Make CSS animations and add logic with help of JavaScript. Fix bugs and understand other people's code. I adjust to new circumstances and team easily. If I have a problem, I can tell about it, don't hesitate to ask for help if I couldn't solve the problem for a long time.**

## WORK EXPERIENCE

---

### Coding a website

FREELANCE | OCT 2021 - DES 2021

- PSD (Figma)
- Coding pages with HTML & CSS
